

# **The LEICC 2018 Fall Training is HERE!**

## **LEICC Training for Parents and EI Service Providers**

*“training on Autism Spectrum Disorders which focuses on the parent perspective...and...will include a parent panel - share their experiences in the - Early Intervention program. This training is expected to be scheduled for the ...fall mainly targeting service coordinators and providers. Families will be invited to attend.”*

When:

Monday, October 29<sup>th</sup> – 9:00 am to 12:00 noon

or

Friday, November 9<sup>th</sup> – 1:00 pm to 4:00 pm

Where: Westchester Library System

570 Taxter Road, 4<sup>th</sup> Floor Elmsford

**This training is offered in collaboration with the Children’s School for Early Development and the Westchester County Department of Health Local Early Intervention Coordinating Council- LEICC Training and Evaluation Services workgroup.**

The purpose of this presentation is to share information with parents and professionals working in the field of Early Intervention and to explore what we as EI providers in Westchester county can do to improve services and supports for our EI children and their families.

This training is a follow-up to a prior training on Autism Spectrum Disorders and will focus on the parent perspective. It will include a parent panel in which parents will be asked to share their experiences in the Early Intervention program and their subsequent journey through their child’s early education.

Each session will include a Parent Panel/Q&A and a presentation regarding positive parent engagement and related best practices. A short film (*TBD?*) and Family Resource Guide will also be provided.
